# ORG NEWSLETTER

Dear Friends and ORG Members,

We are approaching the end of our academic year and I hope many of us have been able to continue the research projects that were interrupted during the pandemic.

We had a chance to meet again and share our experiences during **2022 IADR General Session**, which was held virtually from **June 20-25**. After our online experience last year, we were really looking forward to meeting our colleagues again in person. However, there were still some locked-down areas and this was not possible.

We hope **2023 IADR General Session** will be an onsite meeting, offering opportunities to attend, present, engage, and network in **Bogotá, Colombia in June 20-25, 2023**

Please be aware of the deadlines for submitting abstracts and registering for this exciting meeting to continue to support IADR, and help ORG to continue to move forward. Share this information with your colleagues!

Do not hesitate to contact us if you have any questions, concerns or suggestions.

Best regards,

Conchita Martin, DMD, PhD  
*President*

Jeanne Nervina, DMD, MS, PhD  
*President-Elect*

## 7. Online Communities

IADR online community - IADR Member Discussion Forum Digest started one year ago, and we have an Orthodontics Research Group Online Community that we need to promote and support!

We should make an effort to discuss different topics in our ORG channel, and encourage the use of social media to improve networking with colleagues.

IADR offers a platform to host **webinars** through the IADR site. These webinars are recorded and available [on demand](#) for future viewing and housed in the online continuing education library.

We encourage all ORG members to submit webinar proposals focusing on cutting edge topics so that we can continue to offer the best science in webinar format and build our continuing education resources. Webinar proposals can be submitted from any IADR member, and will be reviewed and approved by ORG officers. Instructions and details on format and how to submit a proposal can be found at the [IADR Webinar Series Proposal Form](#).
